

⚠ Warning

Please keep this instruction manual in good condition and read it thoroughly before use. It will help you to install the child Booster-seat correctly. Any incorrect installation may cause serious injury to your child in the event of an accident. The manufacturer is not responsible for any danger caused by improper installation.

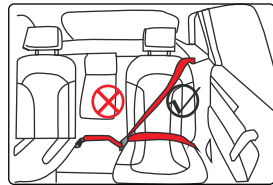

1. Suitability

According to ECER 44/04, this booster seat is classified as a 'universal' child restraint system for Group III, suitable for children with a body weight between 15kg-36kg.

(approx. 3-12 years)

Mass Group II : 15 kg – 25 Kg

Mass Group II : 22 Kg - 36 Kg

✓ Lap and Diagonal belt
Correct fitting/Suitable

✗ Lap belt
Incorrect Fitting/Not Suitable

"Only suitable if the approved vehicle is fitted with 3 point safety-belts, approved to UN/ECE Regulation No.16 or other equivalent standards"

2. Safety Tips

- Do not install or use this child booster seat until you closely follow the installation instructions provided by the child booster seat manufacturer.
- This Child restraint is for forward facing only.
- Do not secure your child booster seat in forward vehicle booster seating position equipped with airbag.
- Please pay attention to all the red stickers or red plastic parts on the booster seat, which are the belt routes for installation.

- Any straps holding the car booster seat to the vehicle should be tight, any strap restraining the child should be as per the child's body, and that straps should not be twisted.

- Don't leave child unattended while he/she is in the booster seat.

- Ensuring that lap strap is worn low down, so that the pelvis is firmly engaged.

- The child booster seat should be changed when it has been involved in an accident.

- Do not make any alteration or additions to the booster seat without the approval of the authorised dealer / distributor / brand.

- When the chair is not provided with a textile cover, the chair should be kept away from sunlight, otherwise it may be too hot for your child's skin.

- Any luggage or other subjects liable to cause injuries in the event of a collision must be properly secured.

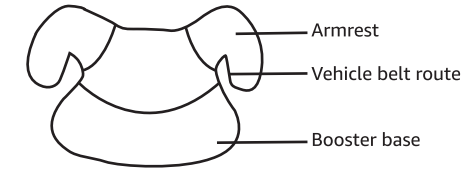

- The child car booster seat must not be used without cover.

- The booster seat cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the booster seat performance.

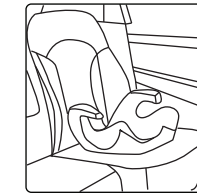

- The instruction manual must be retained for future purpose.

- Do not use any load bearing contact points other than those described in the instruction and marked in the child booster seat.

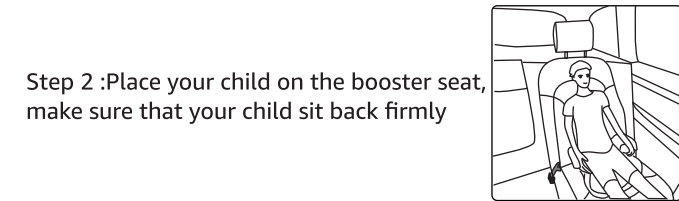

Car Booster seat Information

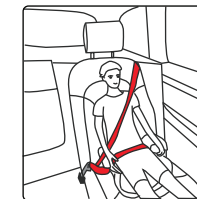

How To Use Booster seat

Step 1 : Place the child booster seat firmly against the back of a forward facing vehicle.

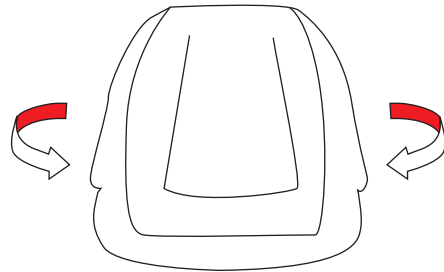

Step 2 : Place your child on the booster seat, make sure that your child sit back firmly

Step 3 : Pull out the lap and diagonal belt and buckle it. Make sure that lap belt goes under the armrest and diagonal belt should be above the armrest marked red.

Cleaning and maintenance

The cover constitutes an integral part of the booster seat performance. Never use the child booster seat without the cover, and it should not be replaced with any other than the one recommended by the manufacturer.

The cover is removable, please remove it as the picture shown. To replace the cover please follow the reverse above order. Please observe the instructions on the washing label of the cover. 30 degree C hand-wash only. Use only neutral detergent and warm water to wash & no bleach. Do not wash by machine, never iron the cover with high temperature, spin-dry or tumble dry are not recommended.

Notice

- This is a "universal" child booster seat. It is approved to Regulation No.44.04 serious of amendments, for general use in vehicle and it will fit most, but not all the booster seats.
- A correct fit is likely if the vehicle manufacturer has declared in the vehicle handbook that the vehicle is capable of accepting a "universal" child restraint for this age group.
- This child booster seat has been classified as "universal" under more stringent conditions.
- If in doubt, consult either the child booster seat manufacturer or the retailer.
- Only suitable if the approved vehicles are fitted with 3-point safety-belts, approved to UN/ECE Regulation No. 16 or other equivalent standards.
- Warning: Do not use in booster seating positions where an active front air bag installed.
