

## BRAKING TECHNIQUES

- To release, shuffling one foot on the ground or press the rear wheel brake positioned over on the heel (models with integral brake).
- Brake after repeated or constant use may be hot. Do not touch it directly after braking.

## BASIC SAFETY RULES

- Always follow the rules of the road.
- While driving, do not hold the occupants of motor vehicles and bicycles.
- Children under the age of four should ride a scooter under adult supervision
- Learn everything slowly. When you lose balance, stop and start driving again.
- Avoid driving on wet, pebbly surface on which there are oil stains, etc.
- Avoid driving in the dark.
- Pay attention to the condition of the scooter.
- Make sure all screws are tight.
- Do not modify the scooters, since it can harm the child.
- You should check whether there are any splinters and cracks.
- It is suggested to use Safety Helmet and Wrist, Elbow and Knee Protectors.
